Enter your selection: 9

** Exit the system **
Would you like to save all scheduled appointments to a file (Y/N)? N
Good Bye!
```

All the functionalities should work regardless of initial loading the scheduled appointments from the appointments1.csv file. The following is a sample.

Initially start the program and test the program using the following test cases

```
Starting the Appointment Manager System
Weekly calendar created
Would you like to load previously scheduled appointments from a file (Y/N)? n

=====================================
    Hair Salon Appointment Manager
=====================================
 1) Schedule an appointment
 2) Find appointment by name
 3) Print calendar for a specific day
 4) Cancel an appointment
 5) Change an appointment
 6) Calculate total fees for a day
 7) Calculate total weekly fees
 9) Exit the system
Enter your selection:
```

Schedule a new appointment

```
